

Jean with Athlean Jones on 66th Avenue, where residents keep their block safe.

Jean Quan for Oakland Mayor

Accomplishments & Visions

Public Safety on Our Block

“We need to **organize** *block by block* to create **real** public safety in our neighborhoods.”

Accomplishments:

For the past 8 years, Jean Quan has been one of the **Council’s strongest advocates for community-based policing & violence prevention strategies** and has been implementing them with residents on the ground for real change. Jean:

- ⊕ Transformed the Hillcrest Motel, M&W Liquors and other problem properties through the *Public Nuisance Ordinance*, which has now been used city-wide on 465 properties.
- ⊕ Authored *Measure Y*, which assigned an officer to every local beat and reduces crime through violence prevention programs.
- ⊕ Worked to save and expand the *Neighborhood Services Coordinator* program that links community groups with city services, while supporting neighborhood councils.
- ⊕ Led the formation of the *Sexually Exploited Minors* network to decriminalize and give opportunities to young women, and increased initiatives to end Domestic Violence.
- ⊕ Improved *traffic safety* in neighborhoods, established the *Wildfire Prevention District*, and provided leadership on the regional Earthquake Preparedness Committee.

Plans & Visions:

We can turnaround violence and crime in our city and create safety for our families if **residents are informed** and **neighborhoods are organized** block by block. We must:

- Implement & strengthen community-based policing in every neighborhood to build stronger city-neighborhood partnerships and accountability on the ground.
- Work with all *Neighborhood Service Coordinators & Neighborhood Crime Prevention Councils* to create strong communities that look out for each other.
- Focus on the most under-resourced neighborhoods to work with *youth organizations, service providers & city residents* to support young people and re-entry populations to get the resources they need to access quality education and meaningful employment.
- Increase *CORE disaster preparedness training*, funding for *seismic retrofitting*, city-wide resources and organizing to prepare for earthquakes, fires and emergencies.
